Have you had an in-class project for honors credit proposal form approved for any other course(s) during any semester?      Yes                  No

If yes, did you earn honors credit for all courses for which a proposal form was approved?

Yes                  No

In addition to completing the stated objectives and requirements of this course, the student will complete the project as described in the attached document to earn honors credit for the course. To earn honors credit for the course, the student must earn a B or higher in the course and complete the proposed project. In an attached document, describe the project, including details about specific timelines, the number of pages of a paper, the length of a presentation, research methods, how many times the student and the professor will meet, etc.
