There are three procedural options for responding to a student’s campus-level review of the assignment of a grade or other decision affecting academic status: Regular Appeal, Expedited Non-Clinical Appeal, and Expedited Clinical Appeal. For all three options, Step 1 of the campus-level appeal process will not take place prior to the posting of final grades.

The Regular Appeal Procedure should be followed if the grade being appealed would not prevent a student from graduating, transferring, or progressing in their designated program the following semester or term. The regular appeal procedure would likely be completed within 40 business days of the start of the next full academic semester.

The Expedited Non-Clinical Appeal Procedure should be followed if the grade being appealed is from a non-clinical program and would prevent a student from graduating, transferring, or progressing in their designated program the following semester or term. The expedited (non-clinical) appeal procedure would likely be completed within 15 business days from the posting of the official final grade.

The Expedited Clinical Appeal Procedure should be followed if the grade being appealed is for a specialized course in a clinical program and would prevent a student from graduating, transferring, or progressing in their designated program the following semester or term. The expedited clinical appeal procedure would likely be completed within 10 business days from the posting of the official final grade plus, if applicable, any additional days required for the completion of program-level appeal procedures stipulated by specialized accredited clinical programs. Some clinical programs may permit program-level appeal procedures to be completed prior to the posting of the official final grade; however, Step 1 of the campus-level appeal process will not take place prior to the posting of final grades.

Students may reach out to their Guided Pathways Advisor and/or program advisor for assistance in navigating the appeals process.
